GEOLIS : A Logical Information System For Geographical Data

Today, The Thematic Layer Is Still The Prevailing
Structure In Geomatics For Handling Geographical
Information. However, The Layer Model Is Rigid: It
Implies Partitionning Geograph- ical Data In Prede?ned
Categories And Using The Same Description Schema
For All Elements Of A Layer. Recently, Logical
Information Systems (LIS) Introduced A New Paradigm
For Information Management And Retrieval ... Aug 2th,
